

Task 1 Dear Alex, How are you? I hope you are doing well. Thank you very much for your letter was arrived few days ago. As i know, you am going to my country. So, today I am writing to ask for the information about England and the weather there. The weather there quite complex. England has temperate marine climate means the water temperature limit is not lower than 0 ° C in winter and 32 ° C higher than in the summer. Weather in the UK often wet because heavy fog and easy to change. In a land where four men dressed Scotland is coldest. In winter, when heavy snow, on the mountains, people can go skiing at a ski resort in Scotland. Despite the fog, snow with rain sometimes but you just need to wear a T-shirt and a jacket just is just enough. This is your knowledge about weather in the UK. Feel free to contact me if you need further information!! I really look forward and see you again!! Love Minh

Task 2 " A successful film only needs famous actors". This is a completely true statement. Because a movie's success depends on many factors. Not only need famous actors but also it need the script, technique, ect... Like in the movie: Descendants Of The Sun. The film was built many famous actor, dramatic scenes, compelling movie content, ect,... The film does not only attract young people, but also won the affection everyone. So, the saying only partly true.
