My parents bought a big cake for me. They sang birthday song, then, I pray something and blow out candles. While we were eating cake, we sang karaoke and danced. It was so moody because you didn't in there. But no problem, Ally. We can see each other soon. See you Nhan Tast 2: '' An ideal house only needs to be large''. I don't thing so. We can't deny the benefits of large houses. It gives us an airy space and beautiful. We can design by easy ways. But, I like a small houses. The first, It is so sensible about finance. If you have enough money to buy a beautiful spacious villa, which would be a great thing. However, if your budget is only moderate, why don't you buy a small town house but affordable. If not, you will fall into a smooth bag, you can have no money to buy the furniture or carry a large debt for many years. It is so bad. The second, a small house spend less time to cleaned. Big space of the villa means that you have to devote more time to clean up more. Whereas, a beautiful small house samples have moderate area don't take you too much time and effort to clean. But, you remember to design and to put furniture scientific way. The last, the small houses make members in your family to closer. In small spaces, the family members must interact with each other more. After a hardword day, all members can have dinner, chatting or watching TV together. That so blissful. Each kind of home have different about convenience but I like a small house. And that all the reason which make me like it.
