

Task 1: Dear Alice, I am very glad to visit to the zoo with you. We are going to Thu Le zoo, which there are many trees and animals. I have been here many times with my friends and my sisters. I came to visit the animas. They are very interesting. I love the monkeys best because they are clever and mischievous. I will wait for you in the librabby oposite the zoo at 8 a.m. See you later. Your friend, Linh. Task 2: I agree with this opinion. Nowadays, modern techlonogy is developing so quickly that many young people sitting in the room with the computer all day. Gradually they become passive and saparated from the outsite world. So theme parks are very useful and intersting. We can do a lot of activities here, such as do the excercise, go for a walk, play with friends and pets, work in the fresh air. It helps us feel more healthy and refreshing after a long day. The widely relationships help us to be more proactive in life, more friendly to everyone. Finally, I think that theme parks should be protected and further developed. It is a valuable place for everyone.
