

task 1; my father will arrive next sunday. he is tall and thin. he has short black hair. he will be wearing T-shirt and jeans. task 2; in my opinion, I prefer casual style because of some reasons as followed. firstly, it takes me a short time to choose clothes. when I go to school I don't need to think what I will wear. the only thing i need that i wear uniform. secondly, i don't need much money to buy formal clothes and spare parts for this. I can set aside a little money to do different thing instead of buying formal clothes. last but not least, wearing casual makes me comfortable. in short, i like wearing casual clothes.
