

Task 1: Dear Eric, It's been a long day from the day i ate your dishes. Although i like meat, i have to eat fish because i'm losing weight now. I like all of vegetables which are green in color. I will finish my job at 5 p.m so i will come home at 6 p.m. Hope to see you soon Love Huong

Task 2: Nowadays people are keeping wild animals in cages for education,... while others think it is a very inhuman act. I think animals need freedom and liberty. Firstly, they always look beautiful in the forest which is their home. For example, a tiger is kept in cage, his eyes is nothing without scare and hopeless. Furthermore, some of them can't live with the zoo's environment and foods that human give them. That is the reason why they die after a few day live in zoo. I think Government should let them live in wild environment and we can entertain or educate chilren by technology.
