

Task 1: Dear Ally, What a pity! You couldn't come to my birthday party in last week. My birthday party was very funny and happy. There were many friends of us that come to me. I got a very big and beautiful birthday cake from my parents. So people ate cake, many candies, snacks,..., drank some fruit or beer together. We also played some games and quizzes, danced with music and talked about everything. Specially, many people mentioned about your absence. Ohhh, a fun memory was David's foot slips when he was flirting with other girls. That so ashamed! Haha... And i was given a lot of presents like clothes, shoes, lipstick, sunglasses,... But one gift that I was suprised a lot. My aunt gave me an ipod that i really wanted for a long times. I was very happy about that. That end. I'm very looking forward to seeing you next time in my 20 - birthday party. Love you so much Thuy
