

Task 1: Hi Ally, As you know Yesterday, My parents and I held my birthday party in my home. I'm very happy because some friends as Tu, Trang, Hieu,...came and all said "happy birthday" to me. Just only you didn't come. I hate you :))))). In the party, One table is full with birthday cake All people sat around it. Firstly I stood up talked something with my friend, gave "thank" to my parents. Then I blew candle on the cake. All people clap your hand to congratulate me. After that, I cut the cake and share for everybody. I received many gift from my parents and my friends like teddy bear, a beatiful watch, a small mirror... The party finished at 9.00 pm and my friend came to home after that. I feel very happy. hi. Tomorrow when I see you at school I'll say more about the party Love you Linh

Task 2: Firstly I think "an idea house" is a house where all people live in fell the most comfortable and happiest. So it don't need to be large. A large house which make people waste much money to buy it but it's not the same with happiness. If only money, cars, and a large house so the meaning of the life is lost . Then Remember that we just only do small things to make the happy house, make you happy at home

Summary that if you say "An ideal house only needs to be large" , I think it's not correct completely.
