Task 2: I disagree with the idea that an ideal house only needs to be large..

Because it is not just a large house which must be fully equipped and brings a touch of warmth to people. I think the ideal house must have full of equipment life. The color of the house should match the preferences of homeowners and the house should be built in a place of comfort and a nice view. An ideal house should have at least four bedrooms for when people come to stay, extra baths and toilets, a utility room, and an office/study.
