

TASK 1: Hi Alex! I'm Hanh, nice to meet you. I'm twenty years old and i'm having my twenty second birthday soon. I have a sister, we are twins but she does not go to the same school as i do. My favorite hobby is singing and listening to music. I just love singing so much. Whenever i have free time or nothing to do i always sing. In the shower, while i'm cooking dinner and when i'm doing housework. I hope i will meet you soon and we can get along well. Write to me soon, bye!

TASK 2: There is no denying that someday, people would be able to go on holiday in space and on the moon. I would love to go to the Moon on holiday, i mean why not? Who doesn't want to go the moon for the holiday if they have the chance to. But the reality is that even if we can go, its going to cost a lot of money. I'm not talking about thousands of dollars but millions. Not many people can afford that and i certainly don't have that kind of money. While holiday on the moon would be really nice but not many people can afford it so it is only for super rich people. I really hope that one day i could be able to afford a vacation on the moon although it sounds impossible.
