

Task 1: Dear John, Oh my god, John. I saw Mirandakerr in a Ha Noi last weekend. I saw her at My Dinh street when she was coming in shopping center. She was so beautiful and sexy. In spite of seeing her, I'm so happy. Love, Lien. Task 2: Nowadays, the rapid development of communications technology has had a significant impact on society. There are both positive and negative sides to this. Example is making phone calls. The first, the phone help me contact with my friend, my parents... at a distance easily. But, we can contact with everybody by email, facebook, snapchat,... Besides, the phone is also vehicle for entertainment. I can listen to music, play game, watch film... on phone. The phone have many benefit but it can harmful to humans by electromagnetic waves. Humans will be affected th brain. So danger. The other hand, if we play games on phone too much, our eyes will be nearsighted. Using the phone too long will affect to our heath. Although making phone calls is a useful way of communicating but we should use it reasonable to avoid the negative impacts for ourselves.
