

Task 1: Dear Jan! How are you today? It's great to see you at the cinema tomorrow. I think the best place we should go to watch film is the Platinum Cineplex at Royal City because it's near your house and my house. There are so many films for us to see but I think Grown Up 2 may be the best choice, Jan. This film is a funny film about five men who have family... They are all have some problem with their families, I have seen part 1 of this film and it was so interesting, so I think we should see this film, how about you, Jan? Can we meet at 8p.m at the Platinum Cineplex in Royal city tomorrow? I'm so excited to see you, please reply me as soon as you can. Your friend Thu Hien

Task 2: Nowadays, almost every family have their own televisions, it's very good because watching television help us to relax after a long day of working or learning hard. However, in my opinion, it's not good to watch television all weekend. Truly, there are some reason of me. Firstly, if you watch television too much, your eyes will be tired because they have to work when you watching TV, sometime you should have your eyes relaxed. Secondly, on the weekend all your family's members are off, you should spend time for your family, you can have a meal with them, I think it's more interesting than watching the television all day. Finally, there many sports you can play on the weekend, such as football, badminton, etc.. So you can enjoy your weekend with your family and friend with many activities, it's more interesting and healthy than watching TV all the weekend.
