

task 2: The best thing about today's films is the special effects. I like the film using special effects techniques . It's fictional film. In this style of film, believable narratives and characters help convince the audience that the unfolding fiction is real. Lighting and camera movement, among other cinematic elements, have become increasingly important in these films. Actors must deliver dialogue and action in a believable way, so as to persuade the audience that the film is real life.
