

Task 1: Hi Paul. It has been a long time since you moved to Tokyo. I am going to visit you on Saturday. I will take a flight to get there. The plane will take off in 6 a.m so I think I will arrive at midday. We will have a lot of things to do like visiting the city, discovering Japanese culture and I believe we will have a good time there. See you soon. Task 2: Nowadays, entertainment is very important to people. After a long day of working or studying, people go home and sit in front of television to watch their favorite programs. Films is the most-viewed program on TV. So each producer has to create the attractive to viewers. Effects is the best thing to impress viewers. In action sences, directors and film makers want to put a lot of CGI (computer-generated imagery) to make the audiences overwhelmed. The film with amazing effects is hard to forget. My favorite film is The Avengers. It has a lot of fighting scenes with many effects like fire, explosions, lightning, , , , And music of the film is pretty good too. The film makes me very susprise. It attracts me very much, I watch it again sometimes. Finally, beside scripts, contents, actors and directors, amazing effects are the most important things to create a successful film.
