

Task 1 HI, Spencer. It's great to hear that. I think we should have dinner in Golden Bowl Restaurant. The restaurant is big enough to park a car in ground floor. The food is wonderful. It's have a famous steak in my neighbour. The Restaurant is not far from my house, it's about 10 minute walk. I'll see you there at 6 p.m. See you later. Dieu Anh Task 2 In my opinion, travelling alone bring us lots of benifits. I think first, travelling alone is cheaper than traveling with family, with friends, so you can save money. Travelling alone give you more self-confident, all you need to do is take a backpack and go. May be you can find someting new about life, about people in other city, people in other country. You may find out the people is friendly, the food is amazing, the view is wonderful. You can experience many things that you have never done before, like go hiking on high mountain, go on a balloon, travel on a subway... You may know more about yourself, what you want, what your hobby, what is your dream. Beacause you just stay home, you can not explore new environment. Travelling alone give you how to fit in the new environment. You can take good care of yourself. May be after travelling alone, you can find a new person in you. You can be free, you just go and travel around the world, no one can stop you. There are lots of benifits, so why don't you start right know, just pack your back and go. Something new is waiting for you.
