

Task 1: Hello Alex! I'm Linh. I was very happy to read your email. Thank you very much for inquiring after me. I'm 19 years old now. There are 4 people in my family. Except for my parents, I have one younger brother. He is 5 years younger than me. In our world, there are many beautiful places in different countries. Therefore, my favourite hobby is travelling around the world. What about yours? Look forward to hearing you soon. Yours sincerely, Linh.

Task 2: When everyone is acquainted with the beach, the mountain, to name but a few, I think the moon and the space will be interesting but also dangerous places to go on holiday in the future. First, you will see the things which have just existed in your imagination. It is a new experience in your life. Secondly, you will satisfy with your curiosity. You can see the moon and the space in real. Although it sounds like it would be great fun to travel to outer space, it would be a lot of work, too. Traveling to outer space takes lots and lots of preparation. Everything has to be planned carefully in advance. Because once you leave Earth's surface, you're on your own with what you have in your spaceship. There's no store to go to in space! In conclusion, it is very fun to travel
