

Task 1. Dear Ally, How are you doing? I hope you are doing well. It was a pity that you couldn't come to my birthday party last week. I had a lot of fun there at my party. I got dressed up nicely, taking photos with my parents, friends and relatives. After that I blew the candles on my birthday cake, sang and danced throughout the night with my friends. Not only my parents were there with me but also a lot of my friends and relatives showed up on my birthday party. I received many gifts on my birthday such as clothes, shoes, cosmetics and books ... I was very happy with what I got on my memorable birthday party. That's it for now. I gotta go. I look forward to meeting you soon this summer. We'll keep in touch through emails .

With Love, Huyen

Task 2 Like everybody, I also have a dream of my own home in the future. A house which is designed and decorated by me. It will be a place where I will always want to return wherever I go. To me, an ideal house doesn't need to be large but full of love. When I was small, I want to live in a large Barbie house just like my toys back then, A house colored in pink, flourished and decorated nicely with stars, moon and glitter. My house will have 5 rooms, and every room will be painted pink . My own room will have a big bed, a big wardrobe where I will store all of my dresses and clothes. I will have a shoe rack for me to keep my lovely shoes there. A house with big kitchen equipped with modern refrigerator, oven, dish washer etc... But now , I'm 19 years old, I have changed a lot and mostly the way I think. My ideal house will be just a simple house, like everyone else's home. My house does not need to be big , it can be small but it will be built on my own money. I will design and decorate it by myself. A house that will fit my living style with modern and convenient furniture. Equipments that is needed for my daily activities... And the most important is that, an ideal house must be full of love, happiness and laughter. In that house, we can live comfortably, happily and freely with the people we love. In conclusion, an ideal house does not necessarily need to be big. It can be small in size but big in the feelings, in the love that we share with our loved ones. There is nothing better than a house with full of love , laughter and happiness. A house is the most fundamental place in our entire life. A dream house is where we can live happily ever after.
