

task 1: dear paul, i am writing in to reply your letter. I'm going to visit you on Saturday and i'm so excited. I will get your place by taxi . I will arrive at 6.am. On saturday, i suggest that we go for a walk, then go swimming in the morning. In the afternoon, i think we should go to see a movie and have dinner. Specially. it might be a good idea if we go shopping together. And that is my idea , what about you? I look forward to hearing from you! TASK 2: When people see a commercial, and animals are talking to each other and having human expressions people think, "how did they do that"? The answer is special effects. In my opinion, the best thing about today's films is the special effect. The first reason is movie special effects as such had very humble beginnings. The ability to create an effect that was brand new was, and still is, the key to the industry.
