

Task 1: Hi Eric. I have received your email. It is so kind of you to make the meal, I was so happy to hear that. I think meat will be good because I don't like fish much. I prefer beef more than pork. About the vegetables, I would like to eat cabbage. I'll be home at 6 p.m. See you soon. Your best friend. Mi

Task 2: In my opinion, keeping animals in zoos is a kind of conserve. My teacher in high school said that publishing about a valuable animal seems to be like writing a funeral oration for them, because after that they find it hard to live peacefully. Can you imagine how animals can live when people hunting wild animals are more and more. For other reasons, keeping animals in zoos is also a way to create for people the love with animals when they go to the zoos. At last, I think that keeping animals in zoos should be done but also have to make for them a living environment as natural environment.
