

Task 1. Hi, Ally It is very pity that you couldn't come to my birthday party, but I can understand for you to do that. I was extremely happy at the party because everyone gave me the greatest congratulations. We did a lot of interesting activities like: sang the birthday song, blew candles, made wishes, ate delicious foods and drinks and danced at the end of the party. My party was quite crowded with attendance of my family and a lot of my friends. Do you know? I really loved opening the presents I was given. There were many lovely ones from the friends and my family, but the thing I liked most is the mobile phone from my father. It is fantastic that I had been desired for it for a long time and my father realized it. I love him very much. But in anyway I thanks for your present you gave me. I am looking forward to see you at your birthday. All the best, Chinh

Task 2 What will my house be like? I close my eyes and see it in front of me at once. First of all, it is overlooking the sea. The sea is my passion. I want every day to breathe and feel the smell of it and hear the black-headed gulls. There's no need to use any transport to get to the city from the house, because it will take you only a ten minutes' walk. That's very important for me because all my life I am dependent on something else - for example, the buses. It is two storeys high. There's a huge garden in front of it. Its interior depends on the light and warmth. I come in and find myself in a small hall leading to the living - room. The living room is decorated all in wood. There is a fireplace, in the middle of it. It smells nice here. The kitchen is next to it. You can get there through a "secret" door - you have to press button on the wall and you'll be in the kitchen which is a big one, decorated all in white. When I look around I see the newest devices (that are useful). All is in order, put in the right place. A door leads to the dining - room. It's a spacious one with a big round wooden table and comfortable chairs. Everywhere there are beautiful flowers and windows so that it always smells of fresh air. From the dining - room a spiral staircase is going up to the second floor. There are bedrooms of all of my family - two for each of my children and a big one for my husband and me. Every bedroom has a huge terrace with a lot of flowers and overlooking the sea. On that floor there is another huge room which is our library - with a lot of books, magazines and a big computer. I love listening to music and there is a sound system which helps to hear music in every room in the house. I open my eyes. Will my ideal house stay only in my dreams or will it become true? Well, only the time will tell!
